WHEREAS, The West German government immediately began proceedings for the extradition of Abu Daoud to stand trial for the Munich massacre; and

WHEREAS, Pursuant to the provisions of the National Housing Act as amended, Section 312 Rehabilitation loans may be made by the United States Department of Housing and Urban Development to property owners in Community Development program areas such as FACE and RAP areas; and

WHEREAS, Under Chapter 32 of the San Francisco Administrative Code, the City may make conventional RAP loans; and

WHEREAS, RAP Hardship loans may also be made to eligible homeowners, interest free, and up to $3,500, and are limited in availability due to Community Development Block Grant being the sole source of funding, and Section 312 loans are limited in amounts available and contingent upon use as a supplement to a local loan program such as RAP, and it is therefore necessary to establish criteria which will be equitable in utilizing such limited Section 312 loans in conjunction with RAP loans; now, therefore, be it

URGING THE STATE LEGISLATURE TO ENACT LEGISLATION PROTECTING FROM DISCLOSURE REQUIRED BY THE POLITICAL REFORM ACT THE IDENTITY OF CLIENTS OF ATTORNEYS AND FEES PAID.

WHEREAS, Government Code Section 87207 (b)(2), commonly referred to as the Political Reform Act, requires attorneys, who, because they are public officials or designated employees of a public entity, to disclose, if said person must disclose sources of income, the name of every person who paid fees to the attorney if the attorney's pro rata share of the fee was at least $1,000.00; and,

WHEREAS, Business and Professions Code Section 6068(e) imposes upon attorneys the duty to "maintain inviolate the confidence, and at every peril to himself to preserve the secrets, of his clients;" and,

WHEREAS, The mandatory disclosure of an attorney's clients may conflict with his duty to maintain confidential relationships; and,

WHEREAS, The Political Reform Act unfairly discriminates against attorneys and brokers by singling those professions out for client disclosure not required of other individual service providers whose sources of income are to be disclosed; and,

WHEREAS, The requirement that attorneys must disclose clients if they are required to disclose sources of income violates the fourteenth Amendment to the United States Constitution by depriving, without due process of law, an attorney's right and duty to protect confidential legal relationships, by placing unreasonable limitations on a public official's or employee's ability to enter into confidential legal relationships, and by applying the obligations of disclosure so unequally as to infringe, unjustifiably, upon

the rights of attorneys to pursue their profession; now, therefore, be it

URGING ENACTMENT OF S. 126, THE EARTHQUAKE HAZARDS REDUCTION ACT

WHEREAS, On January 10, 1977, Senator Alan Cranston introduced S. 126, the Earthquake Hazards Reduction Act; and

WHEREAS, The purpose of S. 126 is to reduce the risks to life and property from future earthquakes in the United States through the establishment and maintenance of an effective earthquake hazard reduction program; and

WHEREAS, As recently as January 7, 1977, San Franciscans experienced several small earthquakes; and

WHEREAS, In the Los Angeles area, United States Geological Survey scientists have discovered an uplift in the earth's crust along a section of the San Andreas Faults that had been dormant since a great earthquake in 1857; and

WHEREAS, With respect to future earthquakes; loss, destruction, and disruption can be substantially reduced through the development and implementation of earthquake hazard reduction measures including improved construction methods and practices, land-use controls and urban development, prediction techniques and early-warning systems, coordinated emergency preparedness plans, and public education and information programs; and

WHEREAS, A well-funded and well-staffed earthquake hazard reduction program, based on Federal research and contributions and State, local, and private participation, would reduce the risk of life loss, destruction, and disruption in seismic areas by an amount far greater than the cost of such program; and

WHEREAS, A well-funded seismological research program in earthquake prediction would provide data adequate for the design, within ten years, of an operational capability that would be able to predict accurately the time, place, magnitude, and physical effects of earthquakes in selected areas of the United States; and

WHEREAS, The implementation of earthquake hazard reduction measures would, as an added benefit, also reduce the risk of loss, destruction, and disruption from other natural hazards and manmade hazards, including hurricanes, tornadoes, accidents, explosions, landslides, building and structural cave-ins, and fires; and

WHEREAS, The objectives of S. 126 include the development of technologically and economically feasible design and construction methods and procedures to make new and existing structures, in areas of seismic risk, earthquake resistant; and the implementation, in all areas of high or moderate seismic risk, of a system for predicting damaging earthquakes and for identifying, evaluating, and accurately characterizing seismic hazards; and

WHEREAS, The further objective of S. 126 is to develop and promote, in conjunction with State and local officials and professional organizations model codes and other means to coordinate information about seismic risk with land-use policy decisions and building activity; and

WHEREAS, This program shall include the United States Geological Survey, the National Science Foundation, the Department of Defense, the Department of Housing and Urban Development, the National Aeronautics and Space Administration, the National Oceanic and Atmospheric Administration, the National Bureau of Standards, the Energy Research and Development Administration, and the National Fire Prevention and Control Administration. The program shall also involve the cooperation of States and their political subdivisions, private organizations, and individuals in the development of plans, activities, procedures, and methods to maximize the risk of life and property from future earthquakes; and

WHEREAS, S. 126 authorizes $220,000,000 for purposes of the Act; now, therefore, be it

WHEREAS, The Hunters Point Naval Shipyard is the only natural deep-water area on the West Coast suitable for receiving and shipping bulk cargo and containerized cargo, being in excess of fifty (50) feet in depth, self-scouring and requiring a minimum of dredging to become the finest fully modern port facility in the world for the handling of such cargo; and

WHEREAS, Under California law, only a public entity can operate a port, with San Francisco being the only party legally able to develop such a facility from the Hunters Point property; and

WHEREAS, There are railroad facilities close by which can be modified economically to participate in serving such an improved port facility; and

WHEREAS, The development of a deep-water port facility would enable San Francisco to enhance its status as a fully competitive world port, would greatly benefit the economy of the Bay Area and would strengthen the capacity of the United States for effective participation in world trade; now, therefore, be it

To amend the Surplus Property Act of 1944 to allow the Administrator of General Services to convey or dispose of to any state, political subdivision, municipality, or public district, without monetary consideration to the United States, surplus and or personal property which is essential, suitable, or desirable for the development, improvement, operation, maintenance, or use of a public port.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

That there be added to section 13 of the Surplus Property Act of 1944 (50 U.S.C.App., §1622) Subsection (i) reading as follows:

SEC. 13(i) (1) Notwithstanding any other provision of this Act, any disposal agency designated pursuant to this Act may, with the approval of the Administrator of General Services, convey or dispose of to any state, political subdivision, municipality, or tax supported institution without monetary consideration to the United States, but subject to the terms, conditions, reservations, and restrictions hereinafter provided for, all of the right, title and interest of the United States in and to any surplus real or personal property which is essential, suitable, or desirable for the development, improvement, operation, maintenance, or use of a public port or reasonably necessary to fulfill immediate or foreseeable future requirements of the grantee for the development, improvement, operation, maintenance or use of a public port.

(2) All property disposed of under the authority of this Subsection shall be disposed of on and subject to the following terms, conditions, reservations, and restrictions:

(A) The property transferred shall be used only for purposes customarily associated with a public port. For purposes of this subsection, the term "port" includes terminal, transportation, repair and other port related activities.

(B) No property disposed of under the authority of this subsection shall be used, leased, sold, salvaged, or disposed of by the grantee or transferee for other than port purposes without the written consent of the Administrator of the General Services Administration, which consent shall be granted only if the Administrator determines that the property can be used, leased, sold, salvaged, or disposed of for other than port purposes without materially and adversely affecting the development, improvement, operation, or maintenance of the port at which such property is located. In the event such consent is granted by the Administrator, the proceeds from any such disposition shall be devoted to port purposes or port related activities only.

(C) All property transferred for purposes normally associated with a public port shall be used and maintained for the use and benefit of the public, without unjust discrimination.

(3) Notwithstanding the provisions of subsection (e) of Section 18, the disposal of surplus property under this subsection, which is determined by the Administrator of General Services to be available for the purposes enumerated in this subsection, shall be given priority immediately following transfers to other Government agencies under Section 12.

WHEREAS, Existing California law does not provide for a mandatory returnable deposit on all beverage containers sold in California; and,

WHEREAS, There exists a serious and growing solid waste management problem which is both costly and unsightly to the citizens and taxpayers of San Francisco; and

WHEREAS, A large proportion of this solid waste management problem can be directly attributed to the widespread proliferation of no return/no deposit disposable bottles; and

WHEREAS, These no deposit/no return containers also constitute a significant proportion of the litter problem which continues to blight the unparalleled beauty and charm of San Francisco; and

WHEREAS, Irreplaceable natural resources which go into the production of beverage containers are being unnecessarily and wastefully depleted due to the lack of a comprehensive recycling program; and

WHEREAS, A report commissioned by the Federal Energy Administration concluded that recycling cans and bottles could cut the average individual energy needs by as much as 44%; and

WHEREAS, More recent surveys, notably one conducted by the Institute of Local Matters in 28 cities nationwide, have demonstrated that beverages are in fact generally less expensive to the consumer when purchased in returnable containers; and

WHEREAS, The imposition of an economic incentive to return and recycle beverage containers would vastly improve the public's efforts to curb the litter problem regarding cans and bottles and in addition would serve to perpetuate a viable reclycling system from consumer to manufacturer; and

WHEREAS, The states of Maine, Massachusetts, Michigan and Oregon have enacted such legislation; now, therefore, be it

RESOLVED, That this Board of Supervisors of the City and County of San Francisco urges the California State Legislature to enact legislation that would mandate that all beverage containers be of the reusable or recyclable type, provide recycling centers for collection of said containers, and establish a refund value on all such containers payable to the consumer upon presentation of the container to the proper redemption authority; and, be it

EXPRESSING OPPOSITION TO SB 42, THE DETERMINATE SENTENCING ACT OF 1976, AS DRAFTED AND URGING IMMEDIATE EMERGENCY AMENDMENTS.

WHEREAS, Under existing law, felony crimes are punishable by various specified maximum and minimum periods of imprisonment in the State prisons and on parole, known as the indeterminate sentence, with violent crimes generally carrying with them a low minimum sentence and high maximum sentence so that the term-setting authorities of the State of California can retain individuals in prison and/or under parole supervision when warranted; and

WHEREAS, SB 42 will, effective July 1, 1977, revise such provisions to fix mandatory sentences in 3 major ranges: 2, 3 and 4 years; 3, 4 and 5 years; and 5, 6 and 7 years; and said bill includes the following:

1) A retroactive provision for the release of individuals in prison whose terms have exceeded the determinate sentence range in their category of offense.

2) A provision for the granting of a 1/3 reduction of the total sentence through "good time" credits.

3) A maximum limitation of 1 year or less on parole for non-lifers and 3 years on parole for lifers, with the maximum permitted institutionalization by the parole agent for a violation of parole being 6 months and said 6 months counting toward the successful conclusion of the parole.

4) Certain "enhancements" which are poorly drafted whereby a Judge can add time for additional felonies, possession of a weapon, and commission of bodily injury to increase a sentence; however, such "enhancements" are not mandatory nor would they affect the application of "good time" credits for the reduction of a sentence; and said bill defines those "violent felonies" which qualify as "enhancements" in a limited and incomplete manner; and

WHEREAS, Under the new determinate sentencing law, robbery in the first degree carries with it, under the indeterminate sentence, a sentence of 5 years to life, and robbery in the second degree which carries a sentence of 1 year to life, will now be consolidated to carry a fixed term of 2, 3 or 4 years, with the differentiation between first and second degree robbery removed; murder in the second degree, which now carries an indeterminate sentence of 5 years to life, will have a fixed term of 5, 6 and 7 years; and assault with intent to commit murder, which now carries with it an indeterminate sentence of 1 to 14 years, will carry with it a sentence of 2, 3 and 4 years; and

WHEREAS, These are but examples of certain crime categories, but all crimes generally fit within these three ranges; and

WHEREAS, San Francisco is experiencing an unparalleled rise in major crime, which has risen 23% in 1976, and San Francisco now leads the nation in violent crime increases; and

WHEREAS, It is estimated that more than 1,000 potentially violent individuals will be released from State prisons when SB 42 goes into effect on July 1, 1977, and it has been estimated that up to 60% of those serving time on parole could be discharged under the retroactive provisions of this bill; and

WHEREAS, The Superior Court of San Francisco has indicated, through its representative, major concern over the provision for sentencing hearings when the minimum or maximum of the range is contemplated by the Judge, estimating such hearings would double the court time and costs; now, therefore, be it

RESOLVED, That this Board of Supervisors does hereby indicate its opposition to SB 42 as enacted into law effective July 1, 1977, and does hereby express its recommendation to the San Francisco Legislative Delegation that, emergency amendments be immediately instituted to lengthen the determinate sentences for violent crimes, particularly murder in the second degree, rape, mayhem, kidnapping, robbery, and assault with intent to commit murder, and eliminate the so-called "good time" credit so that Judges, in setting these sentences, can be certain of the actual time an individual will serve in prison and so that the sentences for these crimes can be lengthened, where necessary, and individuals who continue to be a threat to society will remain

inter alia,

incarcerated; and, be it

FURTHER RESOLVED, That this Board of Supervisors does recommend to the Legislature that the provisions for parole for non-lifers be extended from 1 year to at least 3 years, and the parole for lifers be extended from 3 years to 5 years, with the provision that a parole infraction resulting in the suspension of parole time, be changed from "good time" to "dead time"; and, be it

FURTHER RESOLVED, That this Board of Supervisors also urges an emergency amendment to redefine the sections on "enhancements" in a clear and definitive manner, which would provide for maximum terms when prior crimes, the carrying and use of a weapon, and the commission of great bodily injury, are alleged and proved; and, be it

FURTHER RESOLVED, That the Legislature eliminate the retroactive provisions of the determinate sentencing act, which would provide for the release of persons sentenced prior to the effective date of the provisions who have served a longer sentence and also as this provision would relate to the discharge of individuals now serving time on parole; and, be it

FURTHER RESOLVED, That this Board of Supervisors urges the Legislature to completely review the determinate sentencing act so that an individual who has committed several major felonies and has been found guilty of multiple counts of a new felony, can receive an extended sentence, where such is warranted; and, be it

FURTHER RESOLVED, That this resolution be disseminated to each Board of Supervisors in the State of California, each City Council in the State of California, and to all members of the Legislative Delegations of each County in the State of California.

AMENDMENT OF THE WHOLE
presented in Board 3/7/77

FILE NO. 12.77-6

RESOLUTION NO. 148-77

OPPOSING ANY PROGRAM DEVELOPED BY THE STATE LEGISLATURE AND THE GOVERNOR PENALIZING SAN FRANCISCO TAXPAYERS BY RECAPTURING LOCAL FUNDS FOR DIVERSION TO AREAS WITH LOWER PROPERTY TAX BASES; URGING THE STATE LEGISLATURE TO PROVIDE EXTRA MONEY TO "HIGH WEALTH" AREAS THAT HAVE EXTRAORDINARY EXPENCES; URGING REDEFINITION OF "WEALTH" CLASSIFICATION.

WHEREAS, The California Supreme Court on December 30, 1976, ruled in Serrano v. Priest that the State's system of financing education through local property tax collection is unconstitutional; and

WHEREAS, The Supreme Court has imposed on the State Legislature a deadline of 1980 for the development of an alternative funding method and Governor Brown has proposed a program of education finance reform which phases out over a five-year period the present $125 per pupil basic aid now received by all cities, causing San Francisco to lose $1.7 million per year it now receives; and

WHEREAS, In the first year of implementation, the net effect of the Governor's plan will result in an additional burden of $4.5 million on the local property taxpayer; and

WHEREAS, The plan will require an increase of 15 cents per $100 assessed valuation in San Francisco's tax rate in the first year; and

WHEREAS, The property tax base San Francisco maintains places it in the category of a "high wealth" area; and

WHEREAS, The Governor's plan further recommends freezing the property tax rate in "high wealth" districts and requiring that 90% of the increase in the districts' assessed valuation be recaptured by the State and given to areas that maintain lower tax bases rather than be used for property tax roll back; and

WHEREAS, The educational needs of San Francisco schools are vast and diverse necessitating additional funding allocations for the proper maintenance of quality education and such specialized educational programs as, among others, bilingual education programs and handicapped aid programs; and

WHEREAS, The San Francisco Unified School District approved the following

set of school finance complisnce principles developed by the Association of the Big Five School Districts (Long Beach, Los Angeles, San Diego, Oakland and San Francisco):

1. Revenue raising ability shall be based on needs of students, rather than the wealth of school districts.
2. A base K-12 foundation program which is sufficient to insure an effective educational opportunity shall be provided to all students.
3. At least 50% of the total K-12 Statewide foundation program funding shall come from other than property tax sources.
4. State funding shall be provided for special needs of students to insure them equal educational opportunity.
5. Additional funding shall be provided for special local district needs.
6. An annual inflation allowance which is sufficient to maintain programs shall be built into all financing formulae.
7. There shall be no reduction in current revenue limits per A.D.A.
8. The State shall provide for full funding of mandated programs;

now, therefore, be it

RESOLVED, That the Board of Supervisors of the City and County of San Francisco, in conjunction with the Board of Education of the San Francisco Unified School District, supports the above enumerated principles and hereby opposes any program developed by the State Legislature and the Governor which penalizes San Francisco property taxpayers along with the entire San Francisco property tax program by recapturing local funds for diversion to areas with lower property tax bases; and, be it

FURTHER RESOLVED, That this Board of Supervisors urges that the Legislature redefine "wealth" classification so that it no longer depends solely upon the assessed valuation of taxable property, and that provision in any State educational reform plan be made with consideration given to the extraordinary expenses inherent in the education of urban populations and other urban factors, and, be it

FURTHER RESOLVED, That copies of this resolution be forwarded by His Honor, the Mayor, for transmittal to the State Legislative Representative and presentation by the latter to the members of the San Francisco delegation in the State

Legislature with the request that all necessary action be taken to effectuate the intent of this resolution.

Amendment of Whole of 3/15/77

FILE NO. 248-76

RESOLUTION NO. 195-77

STATING THE POLICY OF THE SAN FRANCISCO BOARD OF SUPERVISORS THAT THE PLAN CONCEPTS FOR OCEAN BEACH-GREAT HIGHWAY SCENIC ROADWAY BE IMPLEMENTED CONCURRENTLY WITH CONSTRUCTION OF THE WEST SIDE TRANSPORT AND STORAGE SEWER PROJECT ALONG THE UPPER GREAT HIGHWAY.

WHEREAS, The Board of Supervisors has, under Resolution No. 185-76, adopted the Upper Great Highway alignment for the West Side Transport and Storage Sewer Project; and

WHEREAS, The City Planning Commission has, under Resolution No. 7021, adopted the Plan for Recreation and Open Space which proposes under the "Western Shoreline Plan" the development of the Great Highway into a smooth curvilinear recreational drive as described in plan concept in the report published by the Department of City Planning on May 24, 1971 entitled Ocean Beach Improvement Plan: Great Highway Scenic Roadway; and

WHEREAS, The Recreation and Park Commission has approved in principle the provisions contained in said improvement plan; and

WHEREAS, Construction of the West Side Transport and Storage Sewer Project or the realignment of the Upper Great Highway each and independently would disrupt substantially the surface area of the Upper Great Highway and adjacent Ocean Beach area and be an inconvenience to residents and users of the nearby neighborhood during the construction period; and

WHEREAS, Simultaneous implementation of both projects would reduce inconvenience to residents and users, would be a fine example of coordinated planning and multiple use, and would save money over the total costs anticipated if the two projects were undertaken at different times; and

WHEREAS, Said improvement plan for the Ocean Beach-Great Highway area includes eleven plan concepts such as, but not limited to, the establishment of a curvilinear roadway having two lanes in each direction, new parking areas along the roadway, new pedestrian access to the beach, and new playgrounds to enhance the use and enjoyment of the Ocean Beach area by residents of the adjacent neighborhood and other users of the beach and highway area; now, therefore, be it

RESOLVED, That the West Side Transport and Storage Sewer Project shall be designed in coordination with the implementation of such plan concepts as those outlined in the Ocean Beach Improvement Plan: Great Highway Scenic Roadway as may be amended; and be it

FURTHER RESOLVED, That the Office of Wastewater Management, the Department of Public Works, the Recreation and Park Department and the Department of City Planning shall, during all design phases of the coordinated project, work together with interested citizens groups and other private and public agencies including, but not limited to, the staffs of the Golden Gate National Recreation Area and the North Central Coast Regional Commission of the California Coastal Zone Conservation Commission with the objective of obtaining the maximum public benefits anticipated from the coordinated project; and be it

FURTHER RESOLVED, That the preliminary site design for the coordinated project including procedures for actual construction and for the accomodation of traffic and the needs of residents and area users during the construction period shall be subject to public hearing and approval of the Board of Supervisors prior to proceeding with final design and construction drawings of any phase of the coordinated project.

WHEREAS, by Resolution No. 832-76 this Board of Supervisors authorized the issuance of 1976 Residential Rehabilitation Revenue Bonds (hereafter Rehabilitation Assistance Program or RAP Bonds) and obligated the City to establishing an interest rate on loans to property owners made with the proceeds of the RAP Bonds which would be sufficient to meet the City's obligation on the RAP Bonds; and

WHEREAS, by Resolution No. 892-76 this Board of Supervisors accepted the bid of the Bank of America National Trust and Savings Association for the RAP Bonds and accepted an interest rate of 5% per annum; and

WHEREAS, based on calculations prepared by the City's financial consultant on RAP, the Controller advised the Chief Administrative Officer that an interest rate of 6% per annum on the property owner loans was necessary to meet the City's obligation on the RAP Bonds; and

URGING THE SAN FRANCISCO STATE LEGISLATIVE DELEGATION TO ACT IN THE BEST INTERESTS OF THE HOMEOWNERS AND RENTERS OF THE CITY AND COUNTY OF SAN FRANCISCO THROUGH ENACTMENT OF PROPERTY TAX REFORM LEGISLATION

WHEREAS, The property tax burden of the homeowners and renters of the City and County of San Francisco has grown faster than for other property owners; and

WHEREAS, Many homeowners have experienced substantial single year increases in property taxes; and

WHEREAS, Renters have experienced constant increases in rents due to this soaring property tax burden; and

WHEREAS, Substantial costs have been shifted from the State to the City and County of San Francisco due to state mandated costs and shared financing programs; and

WHEREAS, In the 1977 Session of the California State Legislature there is being considered a substantial amount of property tax reform legislation; and

WHEREAS, Such legislation should be consistent with the following principles;

1. Homeowners and renter property tax relief should be provided on a progressive basis with consideration given to using the so-called "Circuit breaker" method which provides tax relief when a homeowner's tax burden reaches a specified percentage of income;
2. The programs of renter relief so instituted must be substantially improved in amount and proportion to be equal to the homeowner relief program;
3. Senior citizens must be protected from property tax increases through either an increase in the senior citizens tax relief program or institution of a new program to allow deferral of property taxes and state assumption of the property tax liabilities so deferred;
4. Procedures for reimbursement of state-mandated costs must be strengthened, the use of legislative disclaimers sharply circumscribed and reductions in state support of existing mandated programs eliminated;
5. Some statutory limitation on the raising of property tax revenues by San Francisco and raising of revenue by the State of California are acceptable if applied to both state and local governments;
6. A State Constitutional amendment, such as SCA 5, should be put before California voters forthwith which will allow residential property to be assessed on a lower basis than commercial and industrial property;
7. The current costs of any adopted tax program should be financed from State surplus without additional state taxes;
8. Consideration should be given to substitution of non-property revenue sources for local government which are progressive rather than regressive, including but not limited to the local income tax; and
9. Income tax credit for home improvements on single family dwellings comparable to income tax credit now allowed on improvements to income-producing property should be strongly supported;

now, therefore, be it

RESOLVED, That the Board of Supervisors of the City and County of San Francisco endorses the aforementioned principles; and, be it

FURTHER RESOLVED, That the Board of Supervisors of the City and County of San Francisco strongly urges its State Legislative Delegation to support these principles, and to act in the best interests of the homeowners and renters of our City and County when voting property tax reform legislation; and, be it

FURTHER RESOLVED, That copies of this resolution be transmitted to his Honor, the Mayor, for transmission to the State Legislative Representative for presentation to the members of the San Francisco Legislative Delegation in the State Legislature and all other State Legislators to assist in the passage of tax reform legislation.
